RIKI LOVES RIKI

BEAUTY TECH FOR DAILY LIFE

RIKI Precision Patch

Pioneering Micropin™ Technology
With Hyaluronic Acid and Peptides

- Promotes radiant complexion
- Fine lines under eyes appear smoother
- Diminishes the look of dull skin

800 Pcs Self-Dissolving
Micropins per Patch

6 Patches (3 Pairs)

RIKI LOVES RIKI

How to Use:

1. Wash your face and pat it completely dry. Remove the backing to expose the adhesive.
2. Peel off the patch, careful not to touch the Micropins.
3. Place the patches under your eyes, around your smile lines beside the nose and mouth, or between your brows, then gently press with your fingertips for 30 seconds.
4. After 6–8 hours, peel off and toss the patch. For the best results, leave it on overnight.

Heads-up

- You may feel a mild prickling or tingling. This is normal and means the micropins are dissolving.
- If you notice redness, swelling, itching, or any discomfort that doesn't go away quickly, stop using the patch right away.
- Not for broken or irritated skin. If irritation persists, rinse the area with cool water and consult a doctor.

Ingredients:

WATER,SODIUM HYALURONATE,ADENOSINE,
DIPEPTIDE DIAMINOBUTYROYL BENZYLAMIDE DIACETATE,TRIPEPTIDE-1,
