FORTUNE & FAME MIRROR

Introduction

The Fortune & Fame Mirror combines the highest quality of premium mirror glass with GLAMCOR's proprietary G600 precision flicker-free smooth dimming daylight LED technology package. The G600 technology package is optimized to deliver the highest level of reliability for continuous use environments and for quality of light performance and emission.

Features and Benefits

- Ultra crystal clear low iron premium mirror glass
- Aluminum corrosion-resistant frame
- Multiple mounting and power configurations
- Low profile assembly
- Virtually zero heat generation

G600 Technology Package

- 648 special performance daylight 5,600K LEDs
- 150W max available power (130W operating max)
- Constant current electrical layout
- 6063 PCB assembly
- Dimming settings of 0%, 10-100%
- Dual voltage 100-240AC
- UL, CE approved components

Key Applications

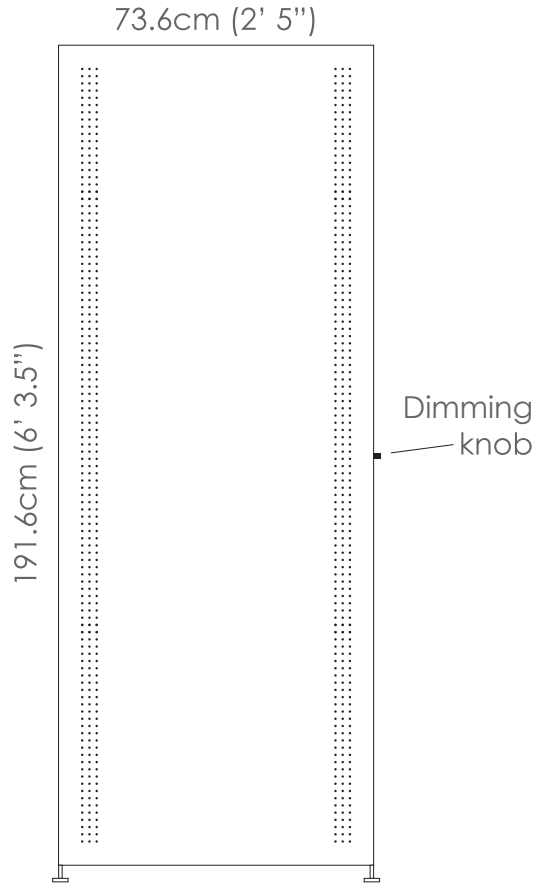

- Clothing Retail
- Home
- Photo Studio
- Upscale Environments
