Identifying the kit components

24V 1A Power Supply
Included (not shown)

Luminary

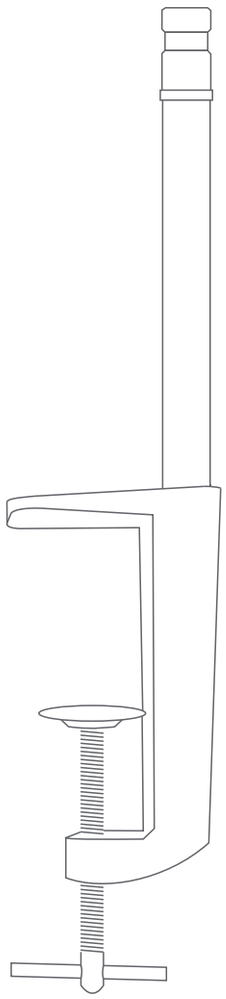

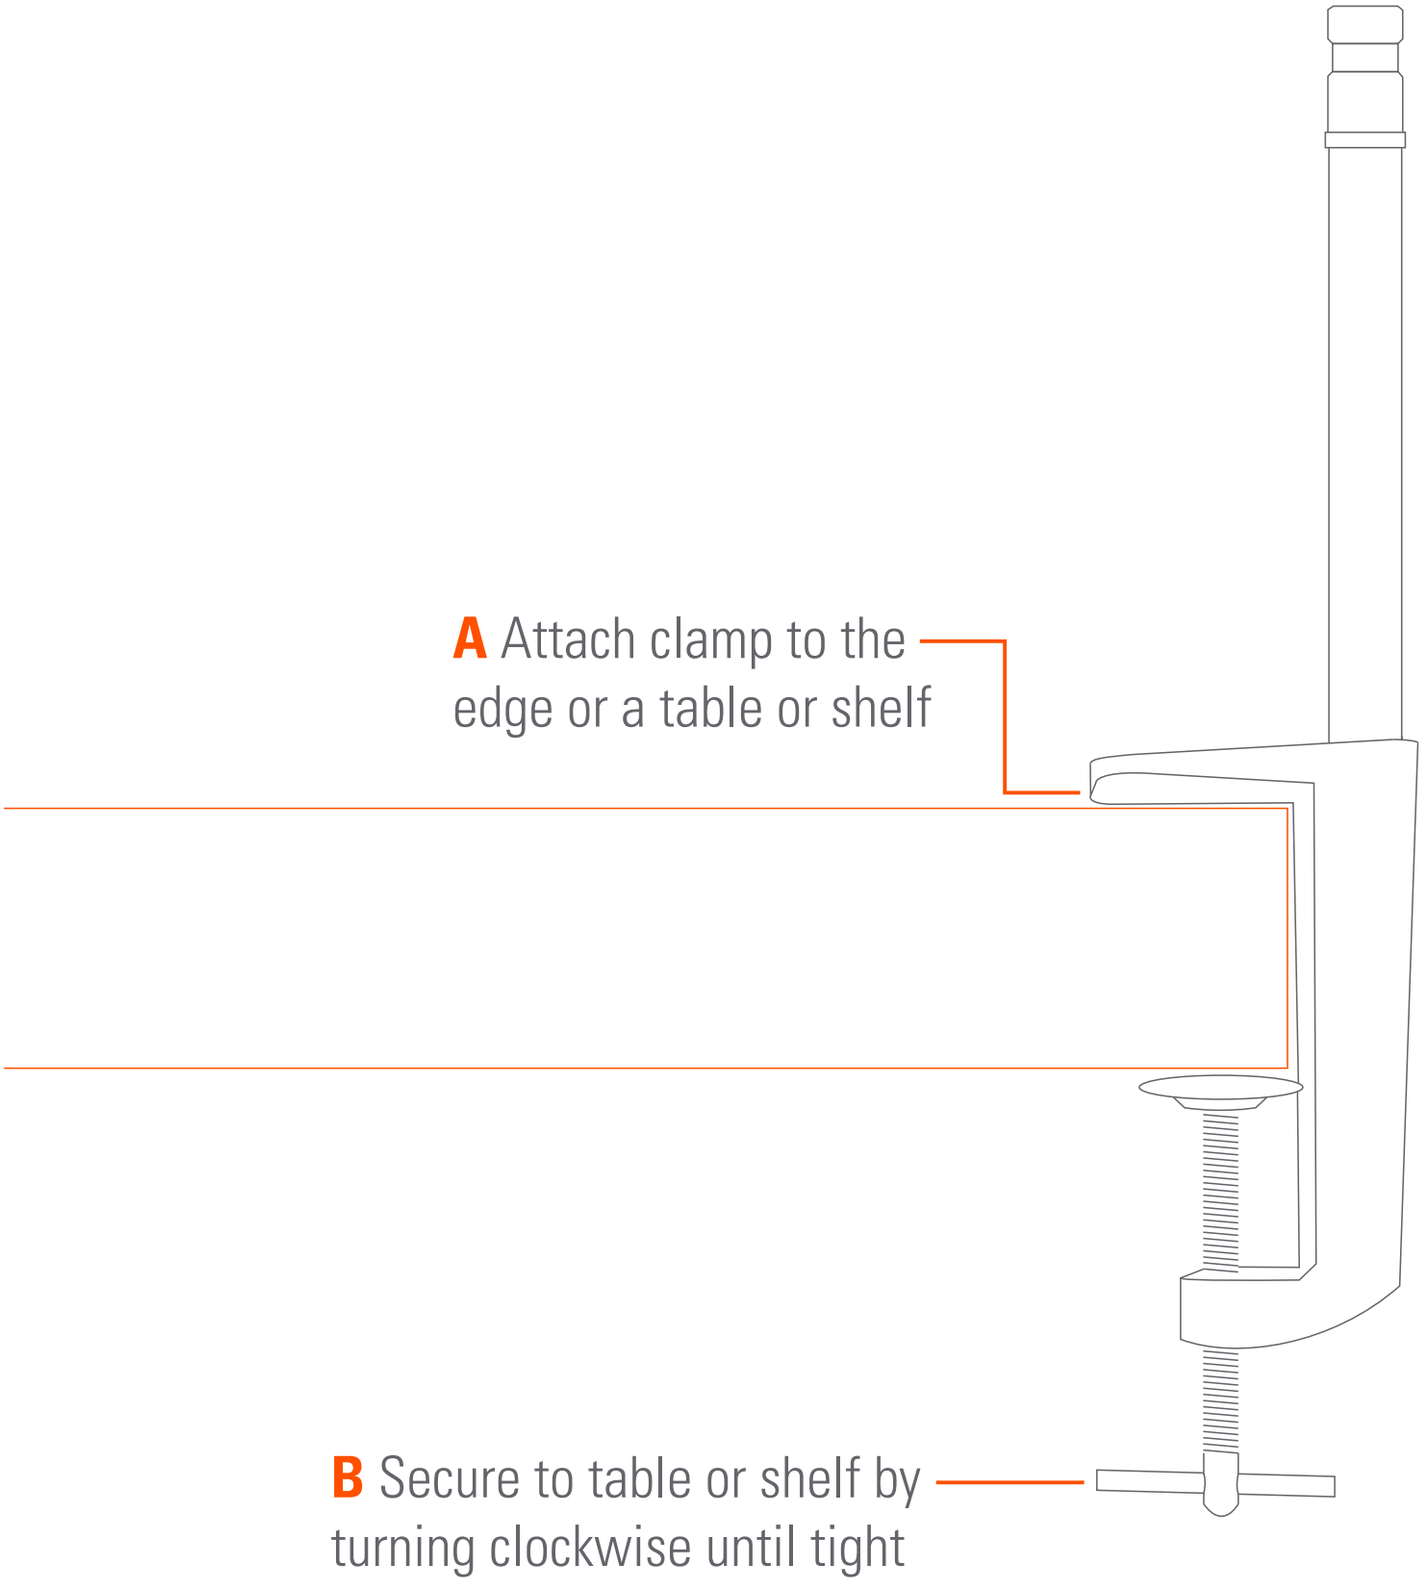

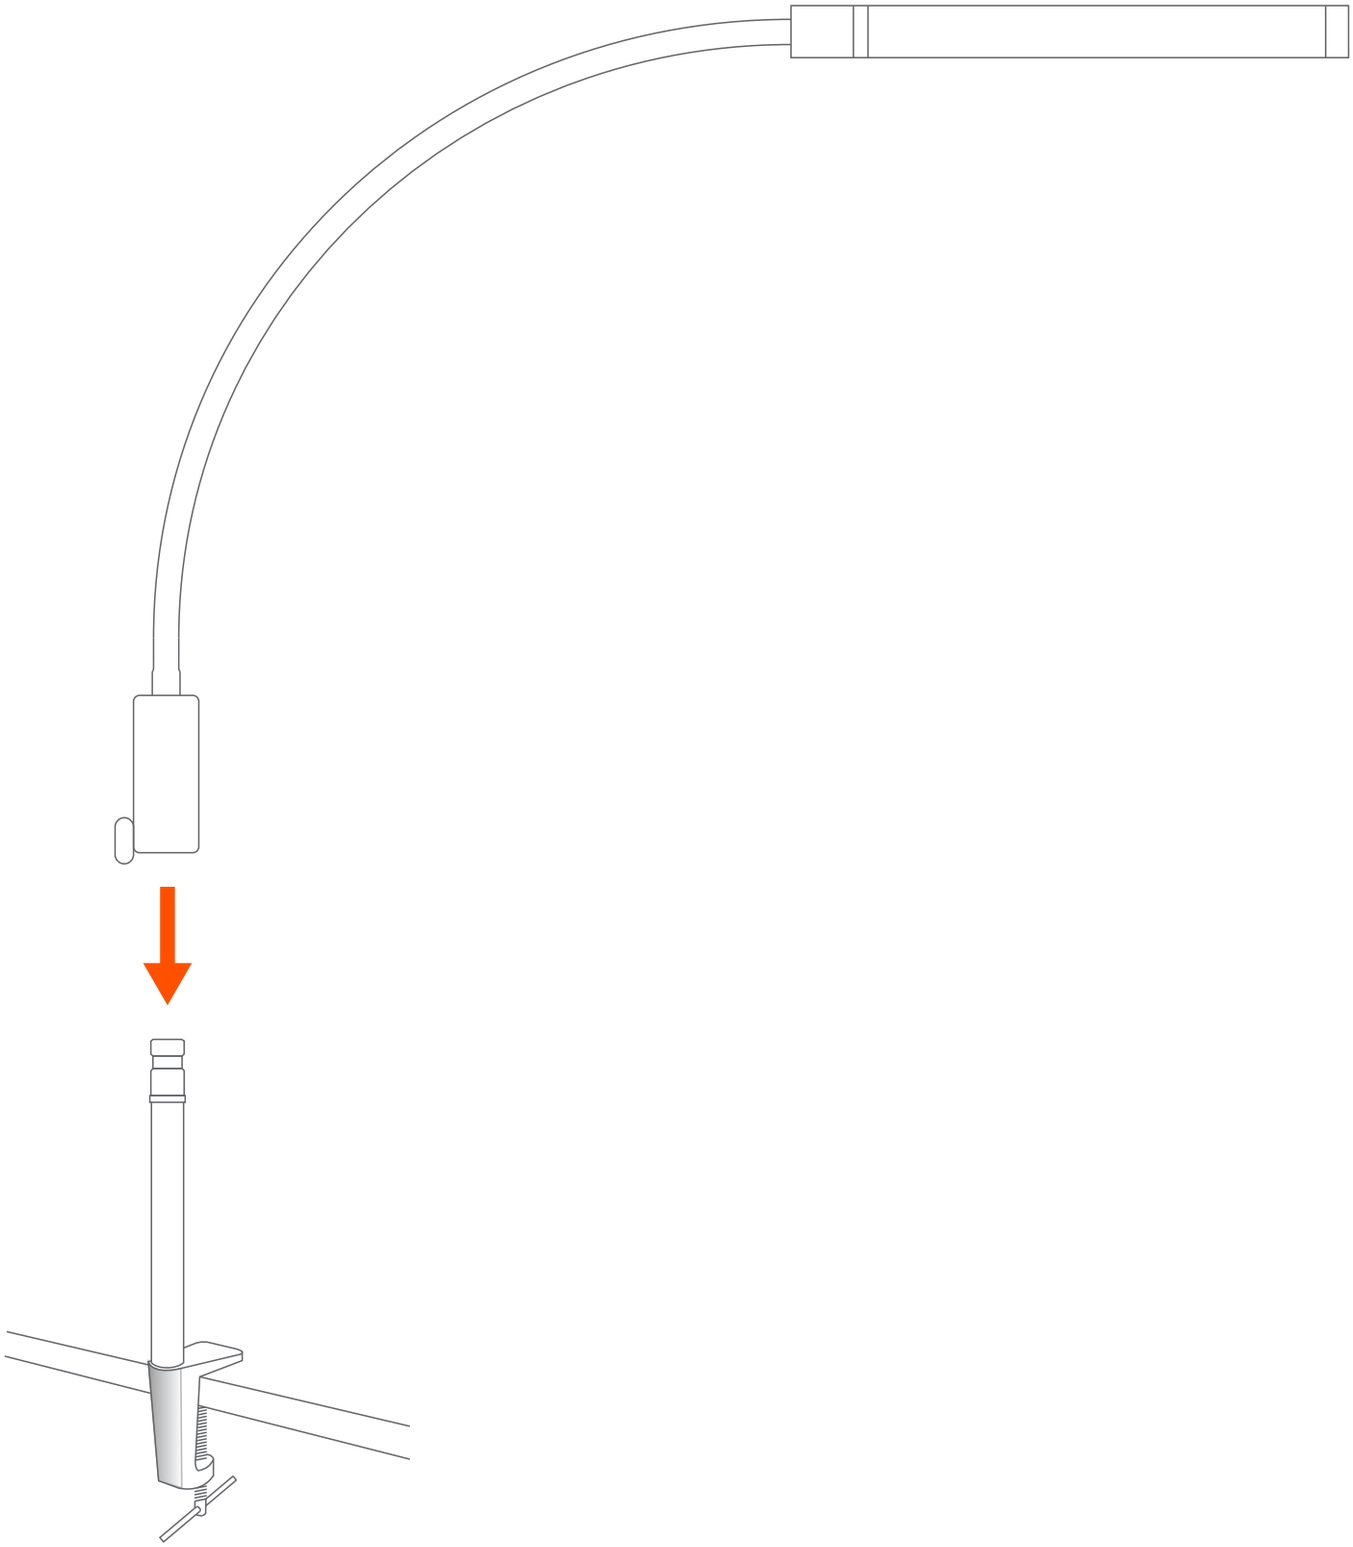

Table Clamp

01 Preparing your table clamp for use

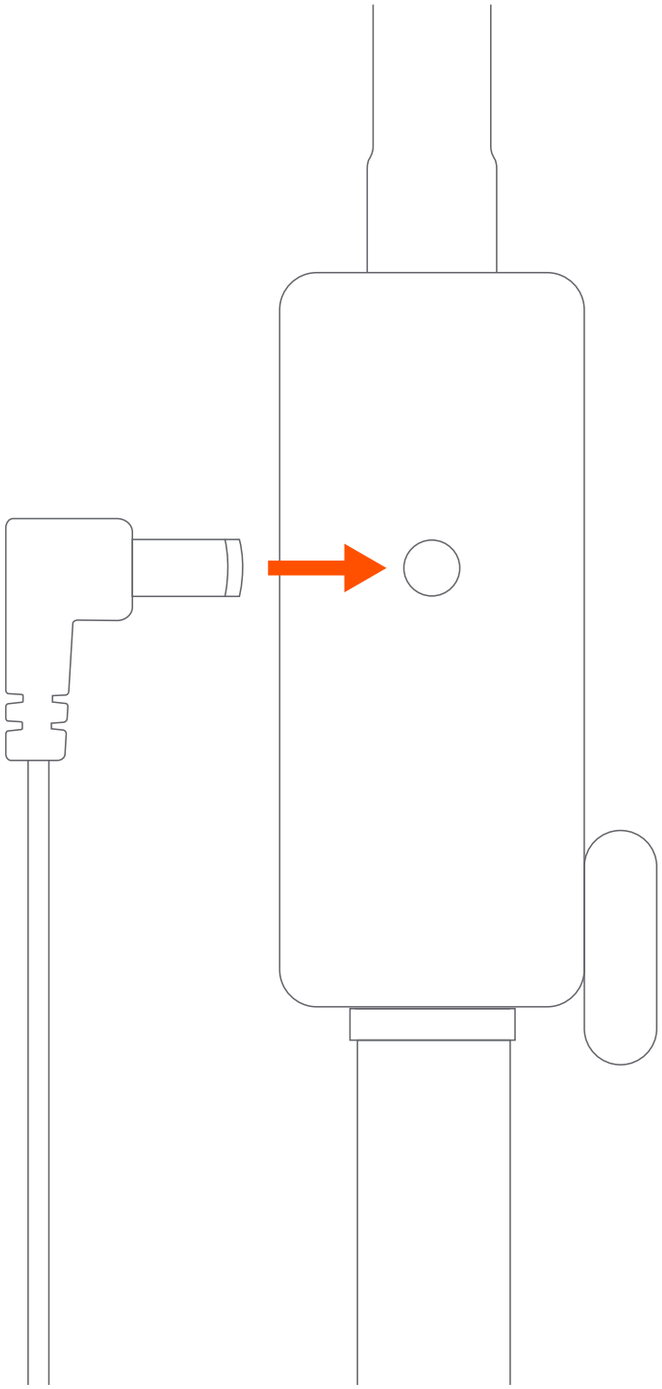

02 Mount your luminary onto the stand or table clamp

03 Secure luminary by tightening knob

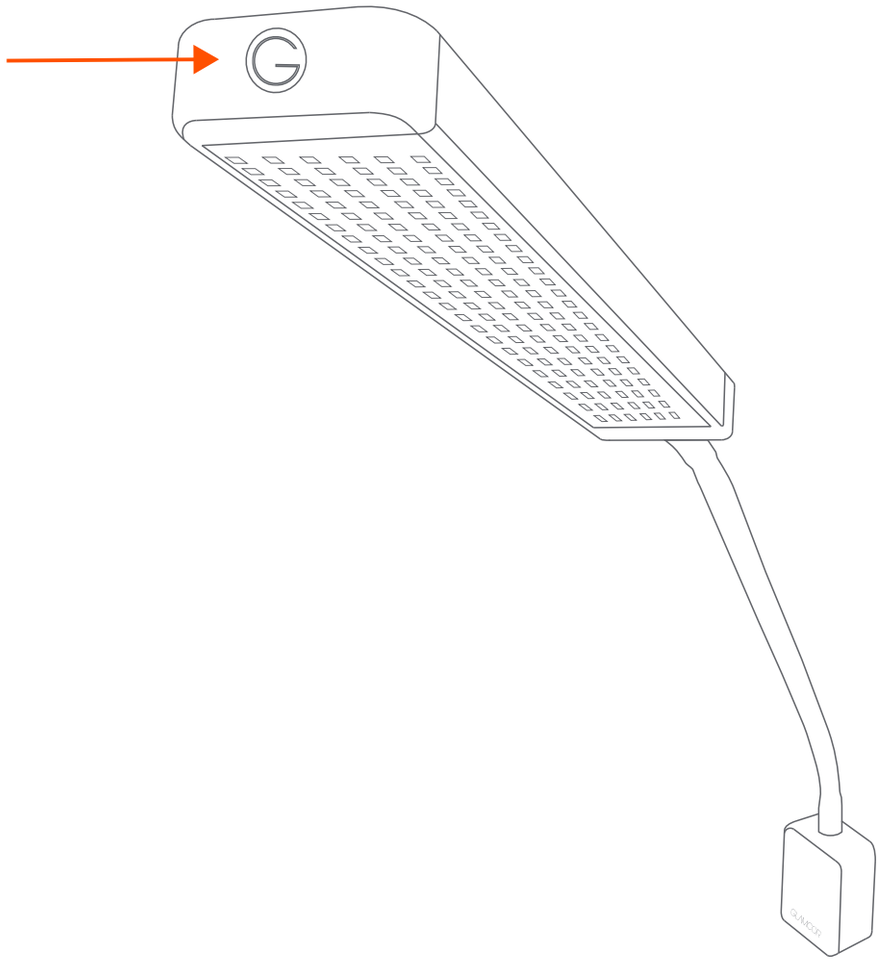

04 Plug power into side of luminary

05 Controlling the functions of the lamp

Touching the “G” button will power on the light. With each successive touch the light will increase in brightness from 20% to 100%, and power off.

Safety Instructions

PROPER USE

This lamp is designed for illumination in dry indoor rooms. It is not suitable for use in damp rooms, e.g. bathrooms. The lamp must never be used for direct irradiation of persons, animals, or plants. Only use this product as described in this manual.

DO NOT SUBSTITUTE A POWER SUPPLY OTHER THAN THE INCLUDED APPROVED GLAMCOR BRANDED POWER SUPPLY OR GENUINE REPLACEMENT.

RISK OF INJURY FOR CHILDREN, PERSON, AND ANIMALS

- Keep children away from packaging - risk of suffocation!
- Keep unsupervised children away from the lamp.
- Do not look directly into the light source! Your eyes could be damaged.
- The lamp is not suitable for irradiation of persons.
- Keep animals away from the lamp! The lamp is not to be used for irradiation of animals, such as poultry, lambs etc. Risk of burning.

LOCATION

- Place the lamp at least 8" or 20 cm from flammable materials.
- Always place the lamp on an even and stable surface to prevent tipping over.
- Do not subject the device to extreme temperatures, severe changes in temperatures, direct sunlight, or moisture.
- Do not allow the device to fall, and do not subject it to strong impacts.
- Keep the lamp well away from heat sources such as stovetops or ovens.
- Ensure that the device is not able to fall in water and cannot get wet.

Safety Instructions (con't)

ELECTRICITY - RISK OF ELECTRIC SHOCK

- Keep the lamp away from humidity.
- Connect the lamp only to outlets corresponding with the technical data of the lamp.
- Check the lamp before each use for damage.The lamp is not to be used when it shows visible damage.
- Do not take the lamp apart and only have it repaired at your local electrical store.
- Before cleaning or if the lamp is not to be used for a long period, unplug the lamp from the main power supply.
- During storms; unplug the lamp from the main power supply. When removing the plug from the socket, always pull on the plug and not the cable.
- A damaged cable must only be repaired at your local electrical store.
- Do not use the lamp if it is damaged or if the connecting cable shows any kind of visible damage.

DAMAGES ON DEVICE AND MATERIALS

- Do not cover lamp, for example with drapes or anything else. This could lead to fire.

CHANGING BULBS

- LED lights last for 20,000 hours. Do not attempt to change bulbs.

CARE / MAINTENANCE

- Keep the lamp away from humidity.
- Unplug the lamp from the mains power supply.
- Dust off the lamp if necessary with a dry cloth.

Warranty / Guarantee

IMPORTANT

Thank you for purchasing this product. It has been made to demanding high-quality standards and is guaranteed for domestic use against manufacturing faults for a period of 12 months from the date of purchase.

This guarantee does not affect your statutory rights. If your product fails due to a defect in material or workmanship during this period, please contact GLAMCOR by email (realperson@glamcor.com) or return it to the place of purchase.

Normal wear and tear is not covered under the guarantee. Any guarantee is invalid if the product has been misused or subject to neglect or an attempted repair other than by our own service center.

Due to continuous product improvement, we reserve the right to change the product specification without prior notice.

FCC Notice - USA and Canada

⚠ WARNING: FOR INDOOR USE ONLY

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
– Consult the dealer or an experienced radio TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
